

MINE MARK Blast & Survey Marker is a quick drying, non-flammable marking spray paint used for vertical & horizontal marking applications in below or above ground conditions.

It is designed to create highly visible temporary markings for mine & blast marking applications as well as construction, landscaping, civil works & surveying.

MINE MARK Blast & Survey Marker adheres well to rock & rough, uneven surfaces which may be damp, dry, or dusty.

Features & Benefits:

- Bright colour range for highly visible markings.
- Designed for above or underground applications.
- Non-flammable & can be used for fire sensitive situations.
- Specially designed actuator that allows for upright, inverted or horizontal spray.
- Fast drying & will not wash away when dry.
- Can be used on damp, dry, or dusty surfaces.
- Does not contain CFC's ozone depleting substances, lead, or chromates
